

Animesh Singh Chauhan

📍 Kanpur, Uttar Pradesh, IN ✉️ chauhansinghanimesh9956@gmail.com ☎️ +91-7905464146 🔗 [in/animeshsinghchauhan](https://in.animeshsinghchauhan) 🐙 github.com/annis18

SUMMARY

Motivated Computer Science undergraduate with hands-on internship experience across cybersecurity, cloud security, and software development. Possesses a strong analytical mindset with proven capability in manual software testing, defect lifecycle management, and requirement traceability. Highly organized and detail-oriented, eager to leverage formal QA methodologies and collaborative problem-solving to ensure robust software quality and superior user experience.

EXPERIENCE

AI in Process Intelligence Intern

CELONIS

January 2026 - March 2026

- Leveraged process mining techniques to identify bottlenecks and optimize operational workflows, resulting in improved process efficiency.
- Integrated disparate datasets to ensure accurate tracking for process intelligence models.

Tech Intern – Ethical Hacking

CYBERSECURITY SKILL DEVELOPMENT

April 2025 - June 2025

- Developed core cybersecurity skills focusing on threat mitigation.
- Technologies used: Wireshark, Nmap, Kali Linux.

Zero Trust Cloud Security

ZSCALER

January 2025 - March 2025

- Focused on continuous authentication, least-privilege access, and micro-segmentation to protect sensitive data and workloads.
- Configured continuous authentication and least-privilege access protocols.

Android Developer

GOOGLE FOR DEVELOPERS

October 2024 - December 2024

- Built and refined mobile features utilizing Android Studio.
- Integrated new user-facing features into the Android application, enhancing functionality and user engagement.

Embedded System Developer

MICROCHIP

July 2024 - September 2024

- Developed and debugged firmware for real-time systems, focusing on efficiency and reliability.
- Optimized code to ensure maximum efficiency and hardware reliability.

PROJECT

Expense Tracker Pro

expense-tracker-pro-indol.vercel.app/

- Developed a production-ready full-stack application for managing finances featuring real-time data visualization.
- Implemented dynamic currency toggling and secure JWT authentication using React, Node.js, MongoDB, and Tailwind CSS.

Personal Developer Portfolio

annis18.github.io/Portfolio/

- Built a fully responsive, modern portfolio to showcase software engineering projects and technical skills.
- Designed a glassmorphism UI with sleek scroll animations using HTML5, Tailwind CSS, and JavaScript.

Resume Builder

resume-builder-dusky-mu.vercel.app/

- Built a secure, SaaS-style backend using Node.js, Express, and MongoDB, implementing JWT authentication and RESTful APIs for end-to-end CRUD document storage.
- Implemented high-fidelity PDF generation and export functionality, optimizing DOM rendering and print styles (@media print) for zero-defect document output.

Manual QA & Defect Tracking Suite

annis18.github.io/OrangeHRM_manual_test_suite/

- Designed and executed manual black-box test cases across Authentication and Registration (IAM) modules using structured Test Scenarios and Decision Tables (DT) for input permutation testing.

• Conducted manual black-box and cross-browser functional testing across Google Chrome and Microsoft Edge within an simulated Agile Sprint environment.

SKILLS

Languages & Frameworks : HTML5, CSS3, Tailwind CSS, JS, React.js, Node.js, Java

Database & Cloud : DBMS, Normalization, Concurrency Control, MongoDB

Soft Skills & Methodology : Agile/Sprint Workflows, Analytical Problem Solving, Technical Documentation, Cross Functional Collaboration

Testing & QA : Manual Testing, Black-Box Testing, RTM, Decision Tables, Defect Tracking
